Note 1: All posts are 0.160" wall thickness

Note 2: All gates come in 3', 4' and 5' wide for each height and style, except Privacy Arched, which is available in 4' wide only.

All materials meet ASTM 964-02 standards for PVC fencing application.

## A LIFETIME OF MAINTENANCE FREEDOM.

Master Halco warrants the original consumer purchaser that Legend® fence systems are free from defects in material or manufacturing workmanship. As a result, these products will not peel, split, flake or blister.

Furthermore, Master Halco warrants that these products will not require the painting and traditional maintenance associated with fencing manufactured from raw materials other than PVC. Nor will they exhibit abnormal weathering, discoloration, brittleness or insect damage.

Be sure to ask your fence contractor for a full written copy of your Lifetime Limited Warranty at the completion of installation.

Fencing Without Boundaries®

THE DESIGNER COLLECTION

LEGEND®  
 by MASTER HALCO

## THE DESIGNER COLLECTION

GIVE YOUR HOME THE FOREMOST IN CHARACTER AND ARCHITECTURAL APPEAL.

### Expand your living room...

Quieter moments alone or outdoor entertaining, why not create your own outdoor room? Surround yourself with four walls of Legend® premium low maintenance fencing and use the sky as your ceiling. A Legend® fence can provide total privacy and eliminate unwanted intrusion.

### Why choose Legend®? The answer is simple. Peace of mind.

Vinyl fences, while having a similar appearance at the time of purchase, are not of equal quality. When you invest in your property you should demand the best in both product and service.

Legend® is our premium PVC fence product and uses thicker walled components produced using co-extrusion...the latest technology in PVC manufacturing that puts the critical ingredients where you need them most in the product. The Titanium Dioxide (TiO<sub>2</sub>) used in Legend® product is high grade/non-chalking and will deliver color stability through years of UV exposure...if you have ever seen a "yellow" tint on a PVC fence you will appreciate the value of this. All of our fences use the highest grade of PVC components that meet ASTM 964-02 requirements for their application.

Choosing a Legend® PVC fence over a comparative wooden fence may initially seem to be a more expensive option, but add in the typical material and labor costs of treating your wood fence every two years throughout its lifetime and compare that to the one-time cost of a Legend® fence. In reality, Legend® PVC is the smart choice.

Why settle for less when you can choose Legend®, professionally installed and backed by a lifetime warranty from America's number one fencing company.

### Professional products – Professional installation.

A fence is only as good as its installation, and Legend® fences are installed by qualified professionals across North America. Your local qualified fence contractor can provide you with a total fencing solution using genuine Legend® products.

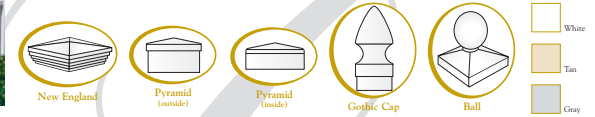

### Contemporary Picket

This series follows the basic design of a traditional picket with an added twist. Pickets here are attached through the rails instead of attached to the rails, offering a sleek and modern appearance. This also provides a "Good Neighbor" solution, which means that both sides of the fence have the same aesthetically pleasing appearance.

Clockwise from top-left:

Traditional with gothic post caps.  
Ornamental II (ball finial) with ball post caps.  
Decorative with external pyramid caps.

### Privacy styles

The perfect way to enclose a garden, providing security and reducing external noise. Available in both privacy and semi-privacy styles.

Clockwise from top-left:

Privacy with Gothic post caps.  
Privacy with lattice accent & external pyramid post caps.  
Privacy arched with ball post caps.  
Shadowbox with external pyramid post caps.

### Traditional Picket

This series brings you back to the traditional cedar picket fence design, but of course without the maintenance that came with those timeless wood classics. These all-American styles offer an elegant, defined and decorative border to your property...restricting access and adding beauty.

Clockwise from top-left:

Scalloped II with external pyramid caps.  
Wide picket with external pyramid caps.  
Arch II with external pyramid caps.  
Picket with external pyramid caps.
